REPORT ON THE TECHNICAL TALK

“The future of Instrumentation & Electronics in the world of applied AI and cloud.”

A technical talk was organized by the Department of EIE on 09th JUNE 2021 for the students of 4th, 6th & 8th sem. The talk was presented by Mr. Abilash Manu Alumni of EIE, JSSATE. He is an Innovation leader, Accenture Bangalore. He has 18 years of experience in envisioning, building and scaling new Product / Revenue streams for clients. Around 90 students of EIE attended the session.

Objective:

To create awareness about AI & CLOUD in Electrical and Instrumentation Engineering.

Outcomes:

Exposure to the Domains of AI & CLOUD in the field of electronics and instrumentation.

The objective of this seminar was to enlighten students about the various career opportunities after completion of the degree. The speaker discussed the different career avenues available in India and abroad. He also presented the rigorous selection criteria involved in pursuing these career avenues.

Students have understood the application of AI & IOT in Industrial automation. Seminar was very much useful to students as they are studying Automation & process control subject in 7th semester.

This program was organized by Mr. B R RENUKUMAR Asst Professor, Dept. of E&IE. All the staffs of our Dept were present in seminar.
